Why do you want to participate in Partners in Teaching Program?

Please list the times of all of your classes in Spring 2004 and underline the one(s) that you might like your partner to observe:

The following are times that I could not observe a partner's class. (Note: Please do not rule out times that are just inconvenient. Remember you will only be visiting this class once or twice, not regularly, so give us as much freedom of scheduling as you can.)

Do you have special requests for the type of partner you would like to be paired with?
